Datasheet for #sb1995 UP

Recommendations:

Please read the starter kit user manual (at least installation chapter 5), if available, and have a look at the FAQ at http://www.alpeslasers.ch/alfaq.pdf

WARNING: Operating the laser with longer pulses, shorter period, or higher voltage or current than specified in this document may cause damage and will result in loss of warranty, unless agreed upon with Alpes Lasers!

WARNING: Beware of the polarity of the laser. This laser has to be powered with negative bias on the laser contact (= bonding pad, corresponding to the label "laser" on the LLH) and the positive bias on the base contact (= submount, corresponding to the label "base" on the LLH).

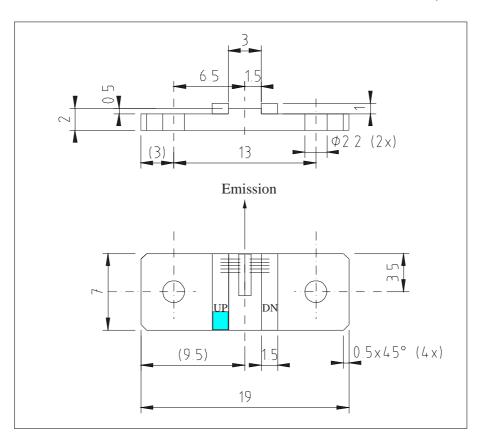

Figure 1: Support mounting for #sb1995 UP (please note that the laser is connected to the UP pad drawned in blue)

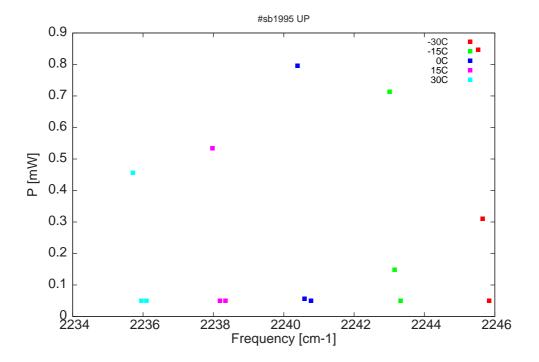

Figure 2: Output power as a function of the single mode emission frequencies and temperatures

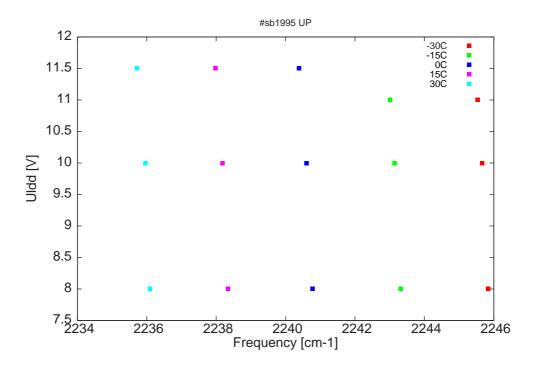

Figure 3: DC voltage fed to LDD (Uldd) as a function of the single mode emission frequencies and temperatures $\frac{1}{2}$

| $\lambda [{ m nm}]$ | $\nu [{ m cm}^{-1}]$ | P[mW] | $\mathrm{Temp}[^{\circ}\mathrm{C}]$ | $U_{LDD}[V]$ | $I_{pulse}[A]$ |
|---------------------|----------------------|-------|-------------------------------------|--------------|----------------|
